VISIONARY DIABETES CARE

SEPTEMBER 27 2019 | AURORA COLORADO

Carol Mills, MAM, BS, RN

Organizational Change Consultant
Behavioral Health Education Specialist

Vision without a method is simply daydreaming! In this opening session, Carol shares her unique expertise to explain proven methods and techniques for creating a new vision.

**Sue McLaughlin, MOL, BS, RDN,
CDE, LMNT, CPT**
2019 AADE Board of Directors

Driving integration is challenging, but Sue will transform your practice using the six-pillars of visionary care. Don't miss this opportunity to develop your clinical and self-management skills.

Shannon Christen, RD, CDE

Department of Endocrinology, Metabolism &
Diabetes | University of Colorado Hospital

As an expert in health insurance, Shannon will examine social determinants of health, coverage, and strategies to help guide patients and clinicians to the most affordable treatment options.

Betsy Ray

Executive Director of Diabetes Activist
U.S. Regional Representative Int. Diabetes Federation

As someone living with T1D for over 50 years, Betsy brings incredible knowledge, experience, and passion to her discussion on the value of person-centered diabetes care.

VISIONARY DIABETES CARE

VISIONARY DIABETES CARE

SEPTEMBER 27 2019 | AURORA COLORADO

Goals & Objectives

Activity type: Knowledge-based

Learning outcome: Diabetes educators will acquire knowledge, skills and resources to enhance their diabetes care practices.

Objectives: At the end of the meeting, participants will be able to:

- Identify key components of the **patient perspective** of living with diabetes
- Explain the impact of **environmental stigma** and current trends on people living with diabetes
- Recognize the importance of **patient empowerment** and patient driven advocacy

- Describe an **evidence-based template** for use with any successful change initiative
- Define how **design thinking** can help you successfully navigate the change process
- Discuss and share **techniques** on effective methods for incorporating change in your practice

- Describe options available for **DIY closed-loop** systems
- Identify tools for people with diabetes to **start and optimize** personalized closed-loop technologies.
- Identify the **pros and cons** of current available options

- Describe the **6 pillars of visionary care** transforming current practice
- Discuss AADEs implementation of the vision and its positioning of diabetes educators for **future success**
- Explain **DANA** and how it can help AADE members become technology experts within their workplaces
- Identify what diabetes educators can do to make **project vision a reality**

- Describe how **social determinants of health** are a barriers to care for diabetes
- Explain various **insurance types** and explain eligibility, the pros and cons, and the effect they may have on a person with diabetes

CONTINUING EDUCATION

The American Association of Diabetes Educators (AM001) is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation. Continuing education credits are pending. The AADE is also accredited by the California Board of Registered Nursing (CEP#10977).

CPE
Accredited
Provider

The American Association of Diabetes Educators (AM001) is a continuing professional education accredited provider with the Commission on Dietetic Registration (CDR). Continuing education credits are pending.

The American Association of Diabetes Educators is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. Continuing education credits are pending.

Certified Diabetes Educators: To satisfy the requirements for renewal of certification for the National Certification Board of Diabetes Educators (NCBDE), continuing education activities must be diabetes related and approved by a provider on the NCBDE list of Approved Providers (www.ncbde.org). NCBDE does not approve continuing education. The American Association of Diabetes Educators (AADE) is on the NCBDE list of Approved Providers.
